

TRANSFER OF OWNERSHIP FOR IMPORTED HAFLINGERS

If your Haflinger has been imported into GB from Europe, and has a passport albeit in Dutch, Belgian, German - don't panic.

These passports are legal and acceptable and should stay with that animal for life. We cannot swap them for British passports.

If you have recently purchased an imported Haflinger and wish to have the passport updated to record yourself as the new owner, we can do this for you.

Please forward to the Registrar the original passport, a proof of purchase (this will be returned) and the name and address you wish recording in the passport. We ask you to print the new owner details clearly to avoid error. There is an administration charge of £10.00 and any cheques should be made payable to 'The Haflinger Society of Great Britain'. We recommend you send your documents by 'signed for' delivery costing approx £1.30. Your documents will be returned to you in the same way.

If you wish to register your Haflinger with the society, details of the process to follow can be found on this website.

We would suggest that if there is a microchip number recorded in your horse's passport, that your vet attempts to locate the chip in the horse to confirm horse and passport belong together. Whilst identification can be confirmed from the markings and drawings that should be recorded in the passport, it is unfortunate, but not unusual that these have not been completed.

Sue Seel – Hon. Registrar
2 The Hopgrounds, Finchingfield, Essex, CM7 4LU.
